- Expanded Data Sources for All Five Data Areas
- Community Resources and Community Partners
- Updated Tri-State COVID-19 data

A New Planning Partnership: **Source For Siouxland and Growing Community Connections**

Background

Source For Siouxland (SFS) is a collaborative, community planning initiative promoting and measuring across the lifespan to ensure a vibrant, productive, educated, empowered, safe, and healthy Siouxland. SFS collects community data to share with the community to make informed, data-driven decisions and improve community outcomes.

Growing Community Connections (GCC) is a tri-state Siouxland collaborative that strives to build relationships and unite partners. GCC's purpose is to improve the quality of life for our children, youth, families, and community members.

Growing Community Connections and Source For Siouxland have formed a partnership to improve community outcomes through the coordination of community partners and utilization of data.

Planning Process

Through community-wide planning and the development of effective partnerships, our community will create the conditions that will improve the well-being of our tri-state area residents and communities. By collecting and analyzing community data, determining strengths and gaps, utilizing focus groups to review the data, and developing planning teams, our community will create a comprehensive, strategic approach to improving our community data.

Community Planning/Collective Impact will be achieved through the following steps:

Step I

- SFS collects, organizes, and seeks input from local/state/national experts on community data in the focus ("bucket") areas of: Economic Stability, Education, Health, Safety, and Quality of Life
- At an annual GCC meeting, SFS coordinates a yearly review of community data and gathers input/anecdotal data from community partners
- GCC and SFS compile the information from the focus area conversations to begin the process of data-driven identification of indicators, community priorities, and goals

Step II

- Five times per year, SFS highlights community data at monthly GCC meetings to promote data-based planning
- GCC supports the five focus areas through connection times/Table Talks to solicit community input and reach consensus on priority areas of concern based on data
- GCC and SFS coordinate planning sessions to identify strategies to positively impact the selected goals
- GCC and SFS identify community partners to align efforts to work toward a common vision
- Community partners identify and review existing organizational plans that relate to the five focus areas of Economic Stability, Education, Health, Safety, and Quality of Life

Step III

- GCC and SFS, along with community partners, identify and implement strategies to improve the data (Collective Impact)
- Together, identify resources for addressing the identified community issue(s)

Community Outcomes

- **ECONOMIC STABILITY:** Siouxland's workforce is fully employed in jobs that match their education and experience. Incomes allow families and individuals to be self-sufficient.
- **EDUCATION:** Educational partners work closely with the business community to ensure tomorrow's workforce is prepared for tomorrow's economy. Barriers to children learning are removed.
- **HEALTH:** All community members have access to healthcare and understand how to impact their personal well being.
- **QUALITY OF LIFE:** Residents feel welcome, connected, and able to thrive in Siouxland. Access to healthy foods, parks and recreation, and arts and culture continually improve.
- **SAFETY:** The Siouxland Community is a safe place for all residents to live, work, and raise children.

WHAT IS SOURCE FOR SIOUXLAND?

Source For Siouxland is a collaborative, strategic community planning initiative for a vibrant, safe, and healthy Siouxland. The initiative developed out of Comprehensive Strategy, which impacted positive youth development through data sharing, early literacy activities, and coordination of community partners since 1996.

WHY IS COMMUNITY PLANNING IMPORTANT?

Communities that succeed are communities that plan. Planning leads to increased resources: funding, in-kind support, and enhanced donor engagement, and supports economic development, healthier communities, a higher quality of life, and greater safety.

WHAT DOES SOURCE FOR SIOUXLAND DO?

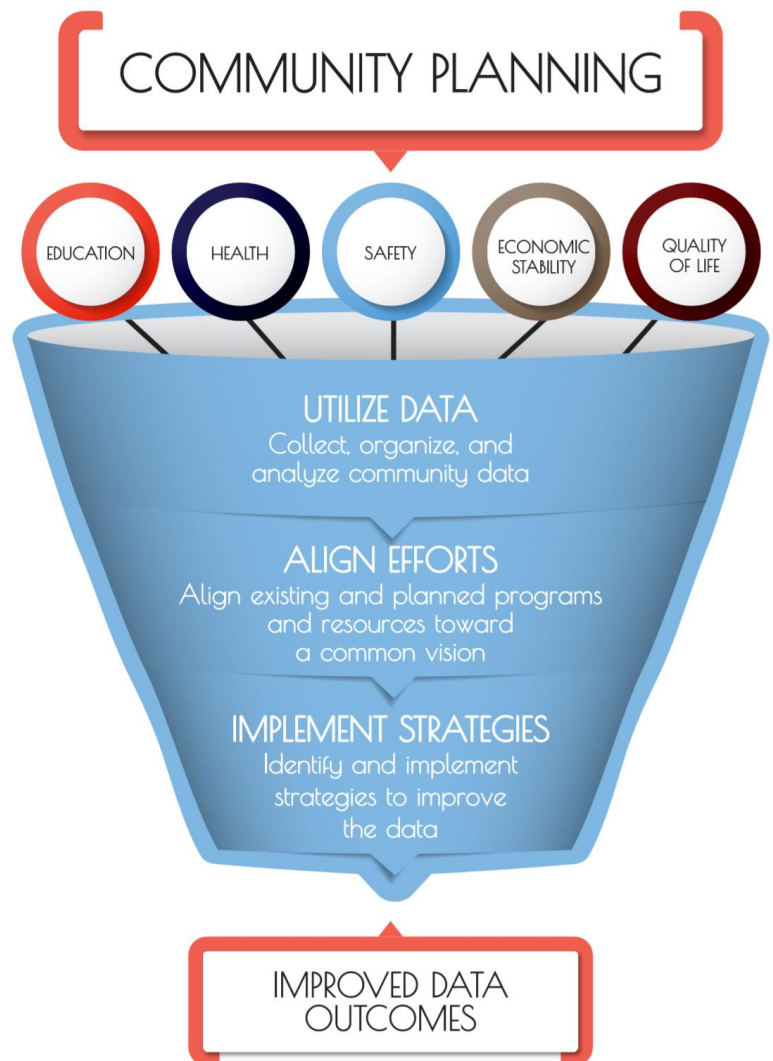

Source measures the Education, Health, Safety, Economic Stability, and Quality of Life of Siouxland in order to align efforts and identify and implement strategies to build a stronger and more engaged community. These efforts will improve the data measured.

HOW CAN YOU MAKE AN IMPACT?

Collaborate. Contact Erica DeLeon at Erica@SourceForSiouxland.com to partner with us.

Share. Share the data, share the vision, and share ideas you have to get us there. View the latest data reports and collective impact initiatives at www.SourceForSiouxland.com.

Invest. Your tax-deductible contribution to Source For Siouxland is an investment in the community's ability to do *more* and do *better* for our community.

Education	Health	Safety	Economic Stability	Quality of Life
<p>Educational partners work closely with the business community to ensure tomorrow's workforce is prepared for tomorrow's economy. Barriers to children learning are removed.</p>	<p>All community members have access to healthcare and understand how to impact their personal well-being.</p>	<p>The Siouxland Community is a safe place for all residents to live, work, and raise children.</p>	<p>Siouxland's workforce is fully employed in jobs that match their education and experience. Incomes allow families and individuals to be self-sufficient.</p>	<p>Residents feel welcome, connected, and able to thrive in Siouxland. Access to healthy foods, parks and recreation, and arts and culture continually improve.</p>

Comprehensive Strategy – A Brief Historical Overview

April 1996 – Coordinated Caring Communities 3-day training event sponsored by the Sioux City Schools, Western Hills Area Education Agency, Woodbury County Board of Supervisors, Siouxland CARES/Gang Prevention Task Force, and Woodbury County Decategorization Project with 75 community leaders in attendance, using Communities That Care Prevention Model to promote positive youth development by addressing Youth Problem Behaviors: School Dropout, Violence, Substance Abuse, Teen Pregnancy, and Delinquency. (Planning Team later known as Comprehensive Strategy Council).

1997 – Technical Assistance Grant from the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to add the full continuum from prevention to graduated sanctions for positive youth development.

1998 – Community focus groups prioritized five out of the nineteen Risk Factors for youth in Woodbury County: Early Initiation of Problem Behavior, Academic Failure Beginning in Elementary School, Family History of the Problem Behavior and Family Conflict, Extreme Economic Deprivation, Availability of Drugs.

March 1999 – Comprehensive Strategy 5-Year Plan for Woodbury County Progress Report prepared, including 5-year target outcomes for reduction of Priority Risk Factors and 5,10,15-year Target Outcomes for Problem Behaviors.

August 1999 – Siouxland CARES designated to house aggregate data used for Comprehensive Strategy risk factor analysis because CARES maintained Tri-State area database of economic, health, crime and risk factor data since 1996.

September 1999 – Greater Sioux City Metro Youth Survey taken for first time by area students and results on CARES website.

2000 – SHIP adopted Comprehensive Strategy Planning Process as planning model for Woodbury County and used it as foundation for several grants submitted on behalf of SHIP.

April, July, October 2001 – First quarterly community meeting held at Briar Cliff University in April. Focus groups looked at data trends, community outcomes/strategies, Progress Report review.

December 2001 – Annual Progress Report 2001, including history of planning, community outcome/goal statements, effective approaches, and data update.

July 2002 – Designed and implemented a community resource survey to collect information about programs and services that support our community strategies.

April 2004 – Series of focus groups held to analyze gaps in support of youth and families.

2005 – Putting the Pieces Together PowerPoint produced as a guide for funders, grant writers, program planners, and policy makers.

May 2006 – Initiated Statement of Understanding to formalize planning partner support for positive youth development.

2001 – 2019 – Annual Data Report documents presented at community meetings.

2018 – 2019 – Launched initiative to broaden/advance Comprehensive Strategy community planning to higher level.

2020 – Formalization of partnership between Source For Siouxland (SFS) and Growing Community Connections (GCC) to improve community outcomes through the coordination of community partners and utilization of data. Weekly updates on Tri-State COVID-19 data posted on SFS and GCC websites.

Sampling of Community Meeting Topics: 2002 – 2018

- October 2002: Research/Science Based Programming – What does it mean to us?
- November 2004: What are our primary gaps in service related to positive youth development in Siouxland?
- July 2005: What can we do, as a community, to address our gaps in community consensus and coordination?
- July 2006: Education Focus – Research and Performance-Based Planning
- October 2006: When Prevention is Not Enough – Spotlight on Current Intervention and Transition Programming
- February 2007: Brain Research and Programming
- July 2007: Systems Analysis: The “Social Process Triangle” Model – Culture, Organization, Resources
- July 2008: A Tri-State Approach to Positive Youth Development: “A River Runs Through Us”
- March 2012: Introducing Environmental Strategies
- February 2013: An Alternative Approach to Economic Deprivation in Siouxland: Exploring the Individual Account Model
- May 2014: Poverty Simulation
- March 2015: Transportation and Mobility Issues
- June 2015: Mental and Behavioral Health Issues in Siouxland
- July 2016: Data Showcase, Early Literacy Highlighted
- May 2018: Research on Early Language and Literacy Development for Children with Disabilities or Those Considered at Risk for Poor Academic Outcomes, Dr. Constance Beecher, ISU

Community Meetings in Partnership with Healthy Siouxland Initiative

- October 2008: Impact of Mental Health Issues on Youth
- October 2009: Quality of Life Issues Related to Youth and Families
- September 2010: “When Jurisdictional Boundaries Hand Us Lemons...”
- September 2011: Policy 2.0
- September 2012: Economic Deprivation: A Prescription for Change
- September 2013: Siouxland Poverty Research Study by Dr. Regan Murray, Briar Cliff University
- September 2014: Teen Sexual Health in Siouxland
- September 2015: Collective Impact, Jennifer Scala of Nebraska Children and Families Foundation
- September 2016: Collective Impact Framework: Academic Failure/Early Literacy
- September 2017: Changing Demographics in the State of Iowa, Dr. Mark Grey, ISU
- September 2018: Community Planning Research and 0 to 3: Prime Age to Engage kickoff
- September 2019: An Expanded Scope: Five New Global Data Indicators; Name change to Source For Siouxland (SFS)
- October 2020: Annual Data Showcase presented at October Growing Community Connections (GCC) meeting via Zoom

2020 Leadership Team & Funding Partners

Partners

Source For Siouxland is comprised of a Leadership Team that oversees the management of the initiative and Community Planning Partners who annually sign a Statement of Understanding agreeing to participate in a data-driven planning process.

Leadership Team

- Barbara Aalfs & Linda Phillips, Source For Siouxland
- Britney Book & Rachel Lundgren, Siouxland CARES (Contractor)
- Amy Bloch, Catholic Charities
- Deb Burnight, Facilitated Resources
- Erica DeLeon, One Siouxland (Contractor)
- JoAnn Gieselman, Growing Community Connections
- Kevin Grieme & Michelle Lewis, Siouxland District Health Department
- Jeff Hackett, Community Representative
- Heather Hennings & Terrie Binneboese, United Way of Siouxland (Fiscal Agent)
- Heidi Kammer-Hodge, Consulting By Design
- Matt Ohman, Siouxland Human Investment Partnership
- Liz Rembold, Briar Cliff University
- Katie Roberts, Siouxland Community Foundation

Thank you to our current Funding Partners:

- Catholic Charities
- Consulting By Design
- Helios Foundation
- Siouxland Community Foundation
- Siouxland Human Investment Partnership (SHIP)
- United Way of Siouxland (Fiscal Agent)
