BUILDING A STRONGER SIOUXLAND THROUGH DATA-DRIVEN COMMUNITY PLANNING AND INTENTIONAL COLLABORATION

Welcome to the Siouxland Data Update and Community Well-Being Report. Inside, you will find the **Source For Siouxland data** you have come to rely on to monitor and understand the community's *Health*, *Education, Economic Stability, Safety, and Quality of Life.* Key indicators are featured on **scorecards** showing our community's progress.

You will find information about Growing Community Connections and the Healthy Siouxland Initiative,

as well as information about other partners whose work impacts the data we are track and share. This report is meant to celebrate our progress in building a stronger, more inclusive and empowering community, while also highlighting the work we still have before us.

We would like to extend a very sincere 'thank you' to the partners who provide financial support of the collection, analysis, and organization of the data updates, especially the **Helios Foundation** and the **United Way of Siouxland**. We would also like to thank **Nebraska Children and Families Foundation** and the **Siouxland District Health Department** for their support of important focus groups, initiative development, and collaborative efforts.

FOCUS AREAS

ECONOMIC STABILITY

Ensuring a stable economy strengthens our communities and provides opportunities for growth. Source For Siouxland tracks economic indicators such as employment, median income, poverty, and access to public services, in order to keep the pulse on local economic needs.

HEALTH

Prevention of physical and behavioral health issues and access to care for those with current conditions greatly impacts our community. Source For Siouxland monitors health-related data to determine the best ways of improving health outcomes in Siouxland. Some important health indicators include mental health, access to care, substance abuse, obesity, and premature deaths.

SAFETY

Source For Siouxland measures a variety of safety indicators to ensure our community remains a safe place to live and reside. Key indicators of safety include reduction of violence, delinquency, quantity of drugs seized, and abuse.

EDUCATION

Access to quality education is imperative for a strong Siouxland. Community members with higher levels of education often have healthier, more prosperous, and socially connected lives. Educational trends also correlate to future workforce needs and opportunities. Source For Siouxland monitors a variety of education indicators including: kindergarten readiness, student proficiency, graduation rates, and available school services.

QUALITY OF LIFE

Source For Siouxland keeps track of indicators of enhanced community well-being. Areas of focus include access to healthy foods, parks and recreation, commuting time, and exercise opportunities. Quality of life indicators will continue to expand as collaboration with local organizations leads to increased sharing of wellness-focused data.

4

Second Thursday of Every Month 9:00 a.m. Zoom

Building Bridges Connecting Communities

Collaboration is key to leveraging resources, reaching more families, and sustaining effective programs that positively impact the health, education, economic stability, safety, and quality of life in Siouxland. A few opportunities to connect are below, and the following pages highlight just a few of the collaborative efforts that are improving the lives of Siouxlanders.

GCC's Monthly Zoom Connection Meetings

Join us the second Thursday of every month at 9am to learn about impactful programs, hear data and initiative updates, and join small group networking meetings around common interest areas.

Thriving Families Safer Children

Contact JoAnn Gieselman for Date and Zoom Link Led by the Casey Family Programs, Annie E. Casey Foundation, Prevent Child Abuse America, and parent consultants who have experienced the current system, this initiative is in more than 22 jurisdictions nationwide.

In Siouxland, the TFSC team developed S.M.A.R.T. goals and action plans to focus on child care needs among newcomer families, young adults aging out of foster care, food insecurity, and mental health/substance abuse.

Community Planning

Fourth Friday of Every Month 9:00 a.m. Zoom The most productive coffee hour you'll ever join! All are welcome to this informal yet action-oriented meeting. Partners identify and address gaps related to mental health, food insecurity, foster youth, childcare, and other needs. The diverse group of attendees means a diverse number and type of solutions are brought to the table and implemented.

Community Response Financial Assistance and Coaching

Apply at: GCCtristate.org 'Give a man a fish, he will eat for a day. Teach a man to fish, he will eat for a lifetime.' Community Response provides one-time financial assistance along with a coach to help families in Dakota and Thurston Counties achieve and sustain economic stability.

Healthy Siouxland Initiative (HSI) Coalition

The Siouxland Community Needs Assessment Committee transformed into Healthy Siouxland Initiative (HSI) in the fall of 1998. HSI is a collaborative

community planning effort led by Siouxland District Health Department and comprised of many community partners. HSI met monthly for nearly 25 years and assisted with the completion of the Community Health Assessment and carrying out the Community Health Improvement Plan (CHA/CHIP). Beginning in January 2022 HSI discontinued meeting monthly and joined the monthly Growing Community Connections Meetings, where HSI began to share updates on the CHA/CHP.

Community Health Assessment/Community Health Improvement Plan

A joint CHA/CHIP is completed every three years to determine the community's greatest health needs, and to coordinate efforts to improve population health outcomes for the Siouxland area. This is a joint venture between Siouxland District Health Department, Dunes Surgical Hospital, MercyOne Siouxland Medical Center and UnityPoint Health St. Luke's in conjunction with several of our HSI Partners. Priority Areas for 2022 – 2024 include: **Mental Health, Physical Health, Substance Misuse and Preventive Care**. Workplans for each priority group contain goals, objectives and strategies that are managed by various coalitions in the community. Listed below are the eight objectives from the current plan:

- Destigmatize mental health in the community via hosting and promoting various trainings, community education and campaigns from 2022 2024.
- Improve networking amongst mental health providers and referrals between mental health and health care community throughout 2022 2024.
- Decrease obesity of Siouxland residents, including the disabled, by implementing various initiatives and strategies throughout 2022 2024.
- Decrease food insecurity in the Siouxland area by developing or expanding food initiatives and strategies throughout 2022-2024.
- Decrease substance misuse (alcohol, THC/marijuana, tobacco) in the maternal health population from 2022 2024.
- Decrease substance misuse (alcohol, THC/marijuana, tobacco/vaping) among teens and adults in the Siouxland area throughout 2022 2024.
- Increase awareness of screening recommendations, timelines and availability to increase the percentage of individuals who receive preventive care from 2022 2024.
- Increase awareness of sexually transmitted infection (STI) rates, STI health issues and community resources to decrease STI rates in the Siouxland Area from 2022 2024.

Community Health Improvement Plan Brief Progress Update

Promoted Mental Health Awareness Month with much more community support in May 2023.

Created a mental health referral guide for community professionals and working on college sliding fee agreements.

Created a network and awareness for more mental health trainings for first responders.

SDHD WIC started referring clients for mental health concerns

Hosted Move Your Way walking program at local mall, created new walking map routes with exercise nodes in downtown skywalk & plan to kick off Girls on the Run in the fall.

Hosted several All Abilities Days, provided a variety of adapted sports equipment to community members and included All Ability teams in local sport tournaments.

Offered container gardening classes to local senior housing complexes.

Surveyed and provided training to medical providers on the harmful effects of various substances while pregnant.

Created various resources/educational tools to be shared with clients and medical providers on the harmful effects of various substances while pregnant.

Provided several diversion classes and prevention classes in the community for adolescents.

Created STI testing toolkit for providers & promoted 3-site testing.

Made several policy, system and environmental changes regarding Syphilis testing and treatment throughout the community.

Local emergency rooms and urgent cares started referring patients without primary care physicians to seek one out.

Kicked off Prevention 101 campaign for general public education.

How Our Partners are Improving Economic Stability

Childcare Solutions

Childcare considerations are naturally top of mind for parents. Finding - and affording - safe, quality childcare is not always easy. Add to that the thousands of parents in Siouxland who work non-traditional hours, when childcare centers are not open. Challenges certainly exist, as do wonderful opportunities like the following.

A Morningside University research team is helping Growing Community Connections' (GCC) partners identify some of those opportunities within the immigrant and refugee communities of Siouxland. In July and August of 2023, the researchers met with Spanish, Somali, and Oromo speaking parents to identify their preferred childcare situation and the barriers they experience. Data and parent-driven solutions will be shared in the coming months.

GCC's own Kathy Moller continues to provide training, mentorship, connections, and support to childcare centers, in-home providers, new teachers, and parents.

GCC and Lutheran Services in lowa are in the early stages of developing a program that will help interested parents become licensed in-home childcare providers. A similar program in Des Moines is very popular with multiple refugee populations, not only because it provides economic stability to the provider but also increases the availability of culturally-appropriate childcare settings.

Community Response Childcare Solutions Team Thriving Families, Safer Children Homeless Prevention & Supportive Housing Family Literacy/Full-Service Community Schools

ECONOMIC STABILITY

Vision

Siouxland's workforce is fully employed in jobs that match their education and experience. Incomes allow families and individuals to be self-sufficient.

Objectives

- Increased Household Income
- Expanded Affordable Housing
- Reduction in Wage Gap
- Reduction in Unemployment

How Our Partners are Improving Education

Family Cafés

Family Cafés are held every other month at the South Sioux City Library Café. Parents and caregivers are invited to bring their children (ages birth – 8) for the hour-long program. While Growing Community Connections (GCC) does facilitate the program, parents drive the topics and are empowered to plan and lead sessions when they are ready.

Children spend the first half hour of each café with the library's Youth Coordinator. They read stories, play games, and socialize with other children while their parents/caregivers learn about a topic they have selected. The families then come back together to do an activity and enjoy a snack.

Family Cafés provide a safe and nurturing environment for parents/caregivers to learn about resources and important topics to help their families thrive. Family Cafés also provide opportunities for children and their caregivers to learn together and to spend quality time with one another, while also building relationships with other families.

Thriving Families, Safer Children Parent-Child Interaction Therapy Family Cafés Full-Service Community Schools Rooted in Relationships

EDUCATION

Vision

Educational partners work closely with the business community to ensure tomorrow's workforce is prepared for tomorrow's economy. Barriers to children learning are removed.

Objectives

- Greater Educational Attainment
- Increased Literacy
- Improved School Readiness
- Increased Educational

Opportunities for Diverse

Community Members

How Our Partners are Improving HEALTH

E

Healthy Siouxland Initiative

Siouxland District Health Department leads a massive collaborative effort across health care organizations. social service partners. community volunteers, the business community, and many other stakeholders to positively impact the health of our community. In addition to partnering with local medical facilities to complete the Community Health Needs Assessment and Health Improvement Plan every three years, Healthy Siouxland Initiative coordinates or plays a key role in:

- All Abilities Coalition
- Mental Health Roundtable
- Food Policy Coalition
- Tobacco Free Siouxland
- Discovering Worksite Wellness
- Sexually Transmitted Infections Coalition
- Source For Siouxland

Mental Health Roundtable

De-stigmatizing mental health services is the primary objective of this team. Over the past year, intentional

collaboration among providers has improved referral services and communication to the public about trainings and programs. The Mental Health Roundtable also worked closely with Growing Community Connections (GCC) to build the Siouxland Resource Guide, ensuring the most accurate provider information was shared with the public.

Up From The Earth & Voices For Food

Food insecurity remains a top concern in Siouxland, and access to fresh, affordable produce is a key part of that challenge. Up From The Earth (UFTE) and Voices For Food (VFF) collaborate to encourage and support community gardens and partner with area gardeners to 'grow an extra row' for food pantries. In 2022, VFF's 61 volunteers distributed over 13,000 pounds of produce to over 4,300 individuals.

HEALTH

Vision

All community members have access to healthcare and understand how to impact their personal well-being.

Objectives

- Increased Physical Well-Being
- Decreased Substance Use in the Maternal Health Population
- Decreased Local STI Prevalence
- Improved Mental Health Landscape

How Our Partners are Improving SAFETY

Community Planning

During the pandemic, a handful of Growing Community Connections (GCC) partners started meeting weekly on Zoom to quickly identify and respond to COVID-related gaps and needs in the community. As the urgency of that time lessened, the meetings moved to monthly but the collaborative spirit around solving community issues did not wane.

Most recently, this group connected first responders to Siouxland P.A.C.E. in order to better assist home-bound individuals and preserve emergency resourcces. The team is also working with Dakota County Extension to build and sustainably stock food boxes in the community to help with food insecurity issues.

Siouxland Resource Guide

The Siouxland Community Resource Guide is an interactive tool that connects community members and organizations to needed resources. The partners providing those resources can easily update their page as services change and grow. If you are with an organization that should be listed, sign up at GCCtristate.org today! Register your organization and find resources at GCCtristate.org

Multilingual Communications Network

electronic Seventeen sians are now distributing important health, safety, and educational information across the Siouxland region. The signs are remotely controlled so immediately can be updated and simultaneously. To submit information for publication, e-mail jgieselman@siouxlandship.org.

SAFETY

Vision

The Siouxland Community is a safe place for all residents to live, work, and raise children.

Objectives

- Decreased Availability of Drugs
- Decreased Childhood Trauma
- Reduction in Juvenile Delinquency
- Reduction in Accident Mortality

How Our Partners are Improving Quality of Life

Ready to Serve

Thanks to a generous donation from Missouri River Historical Development (MRHD) and the leadership of Dr. Cyndi Hanson, Growing Community Connections pulled together an all-star team of Siouxland partners to develop and launch Siouxland's first *Ready to Serve* leadership development program. This five week, ten-hour course was taught by Dr. Hanson and 16 other local leaders.

The purpose of Ready to Serve is to build a cadre of diverse community leaders who are confident, connected, and prepared to influence positive change as members of boards, advisory councils, commissions, and in other leadership spaces. The shorter program is a great supplement to Leadership Dakota County and Leadership Siouxland, and focuses exclusively on building the skills and connections needed to jump into service.

Topics include:

- Developing a profile as a leader
- Understanding expectations of volunteer leadership roles
- Becoming an influential leader and championing change
- Understanding board operations, financial reports, strategic planning, and common board processes
- Deciding where and how to serve

Seventeen upcoming leaders joined the inaugural *Ready to Serve* class, and the waiting list for the next class is forming. Contact JoAnn Gieselman at jgieselman@siouxlandship.org or Cyndi Hanson at cyndih@northeast.edu to learn more or be notified of the next cohort.

QUALITY OF LIFE

Vision

Residents feel welcome, connected, and able to thrive in Siouxland. Access to healthy foods, parks and recreation, and arts and culture continually improve.

Objectives

- Increased community connections
- Increased social associations
- Increased exercise opportunities
