### THIS MONTH'S TOPIC: VIOLENT CRIME

## VIOLENT CRIME In Siouxland

The percentage of juvenile detentions for violent crimes in Woodbury County has increased from a rate of 27.6% in 2018, up to 48.6% in the most recent data from 2022.

An increase in violent crimes signifies potential underlying social issues, including inadequate family support, exposure to violence, and limited access to resources for positive development. Violent crime can lead to significant societal challenges, including increased fear, compromised community safety, and potential economic impacts due to decreased investment and tourism.
